"Interstellar", "Nocturnal animals",
"Byzantium"

LANGUAGES

Armenian

native

English

more than

beginner but not

much fluent

Russian

second

Hi! I'm Front-end Developer. I'm from Yerevan. I develop web pages of various sizes and styles. More about me you can see on my website. I learn react.js and next.js with typescript. I have knowledge about Webpack, TailwindCSS. I can find what I need on the internet, quickly and correctly. in my humble opinion it's a good skill and I don't get tired of researching information. I can learn new things throughout my work and proof that I am a workaholic. I am ready to new and hard challenges throughout my work.

TRAINEE

Webex

(January 07, 2022 - January 08, 2022)

Trainee

while studying at «STIMULUS THOUGHT», with their help, I temporarily got a job at «Webex LLC» as an intern for a month during the internship, got a little experience in a team
